

## NOVEL PUNISHMENT

Unique Sentence Given a Bigamist by N. Y. Judge.

## ANTI-VIVISECTION CAMPAIGN

Currency Question Causing Much Discussion—Glasses to the Value of \$5,000,000 Broken Every Year in Gotham in the Thirst Palaces.

New York has been for the past few weeks in the throes of an anti-vivisection campaign. The agitation is said to have begun in the rivalry of two opposing humane societies in the city, was taken up by an influential newspaper and finally spread to such an extent in the experiments upon living animals, industriously spread about by the agitators, that bills to regulate and restrict such experiments were introduced in the state legislature. Now the physicians of the city have become aroused and have shown that these stories of atrocities are false and the Board of Health of the City has passed resolutions declaring that all the advances in preventive medicine for the past twenty years which have reduced the death rate in New York nearly one-third saving the lives of more than 30,000 persons a year, have been based to a great extent upon experiments performed on living animals. Health Commissioner Darlington has brought forward statistics to show that death from diptheria in the city have been reduced to one-fifth what they formerly were as a result of the animal experiments that led to the serum treatment and has asked the anti-vivisectionists how many dogs they considered to be worth one human being thus saved from death. Thus reduced to absurdity the movement to save street dogs and guinea pigs at the expense of human beings seems likely to collapse and the bills to which it gave rise probably will be allowed to slumber quietly in their pigeon holes at Albany.

Could the wisdom of one New York judge be followed compared to which, by the way, the wisdom of Solomon fades into obscurity—the evil of bigamy would soon be eliminated. A Justice of the General Sessions has just made a ruling in a case of this kind calculated to strike terror to the hearts of all men who find that one wife is sufficient, in spite of the country's laws to the contrary. Instead of sentencing to a term in jail a man who appeared before him admitting that he had two wives, both living, thus freeing the husband from the marital obligations which he had assumed, the learned judge continued these bonds with added punishment. His decision, which may mark a new departure in cases of this kind, sentenced the husband to support both wives and to pay to each of them a stipulated sum each week for support. Further than that the bigamist was

paroled in charge of his two mother-in-laws, according to whose reports his sentence was to be commuted. The husband moreover will be called upon to give a security bond that he will continue his double life under the restrictions imposed. In this epochal decision many wives and legal lights in New York see a promise of an early termination of the crime of bigamy.

More glasses—drinking glasses—are broken in New York every day than in any other city in the world, according to figures just gathered. In the seven thousand and odd drinking places along the Incandescent Row, as Broadway is now called, the value of goblets shattered every year would support more than 4,000 families, since the total runs about \$4,000,000 every twelve months. Strange as it may seem the common beer glasses at five cents apiece furnish nearly half of the total, more than \$2,000,000 worth of "schooner" containers being smashed every year in various ways. It is not alone the cheapest glasses which contribute to this enormous total, however, since thousands of choice glasses made of cut or Venetian glass and valued at from fifty cents to several dollars apiece are broken in the higher class cafes every year. The figures show indeed more than one hundred of the most exclusive places in each of which such breakage amounts to more than \$2500 annually. There are at least a dozen, too, where the sum exceeds \$10,000 every twelve months. The careless or destructive public is not called upon to make good this loss in the majority of places except in the case of mirrors. For the pleasure of breaking one of them the customer is expected to pay. Of course, to a large part of the \$4,000,000 annual loss arises from the more valuable glasses which are merely chipped. Such, however, in the better cafes and hotels are discarded as a total loss. How important this whole item is may be seen from the assertion of glass manufacturers to the effect that an annual revenue averaging \$200 accrues to them from each drinking place in the state. In addition to this the value of the glassware stolen from the restaurants every year amounts to about \$1,000,000 so that Father Knickerbocker's drink bill, in addition to costing him about \$350,000,000 annually for liquors consumed has added to it the not insignificant sum of \$5,000,000 for containers.

## BABY CROP.

Stork Has Brought Father Knickerbocker 32,655 Youngsters This Year Making Biggest Total Known

NEW YORK, April 10.—Father Knickerbocker, if recent figures count for anything, has undoubtedly won the Roosevelt anti-suicide medal. Since the first of the year the baby crop, undisturbed by panics, has assumed proportions never before achieved not only by New York, but by any other city in the world. The stork has been an extremely busy bird hereabout since no less than 32,655 babies have come to increase the population of the city during the first three months of the year. This is the biggest number on record for any three months in the history of the

## MIXTURE TO CLEAN BAD BLOOD

BY ACTING ON THE KIDNEYS—HOME VEGETABLE MIXTURE WHICH FORCES THE KIDNEYS TO FILTER OUR IMPURITIES.

All medical authorities are agreed that the blood is the great source of disease or of health in the human system. If the blood is pure, the individual is strong and healthy, if the blood is impure or diseased then there is sickness or decay in the whole system.

Rheumatism is strictly a blood disease. It is caused by excessive uric acid. Sores, pimples, etc., mean bad blood. Catarrhal affections must be treated through the blood to get permanent results. To get well, to feel strong, hearty and vigorous one must have good clean blood and lots of it. You can't clean the blood thoroughly unless the kidneys are made active. Bad blood means clogged, inactive kidneys and liver which causes, too, such symptoms as backache, nervousness, bladder and urinary difficulties and other sympathetic troubles.

Here is a simple home remedy and the Recipe for making it up is as follows:

Fluid Extract Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime. The ingredients can be obtained at any good prescription pharmacy at small cost.

Here the readers of this paper have a simple yet powerful and effective remedy for all forms of blood, kidney and bladder diseases which should relieve rheumatism and catarrhal affections and replace that weak, worn-out indifferent feeling with strength, vigor and health.

city, and greater by 3361 than the same period in 1907. Based on this standard Father Knickerbocker may expect about 400,000 babies during the present year, and as the increase of the city's population depends on local births for only a small percentage of the increase of its population, as compared to immigration it seems probable that New York may shortly be the most populous city in the world. Not only is the birth rate the highest in the history of the city, but the death rate the lowest. The average in this regard so far this year shows less than eighteen and one-half deaths out of each one thousand population. A surprising feature in this connection is found in the decrease of marriages. Whether because of the hard times or the new registration law is not known, but records for the first quarter of 1907 show only 9557 marriages during the quarter as against 11,750 during the same period last year. As a result it appears that while Cupid and the undertakers are less busy, the stork is busier than ever before.

## How to Avoid Appendicitis.

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. T. F. Laurin Owl Drug Store.

Mr. S. L. Bowen, of Wayne, W. Va., writes: "I was a sufferer from kidney disease, so that at times I could not get out of bed, and when I did I could not stand straight. I took Foley's Kidney Cure. One dollar bottle and part of the second cured me entirely." Foley's Kidney Cure works wonders where others are total failures. T. F. Laurin Owl Drug Store.

## THIS MAY INTEREST YOU.

No one is immune from Kidney trouble, so just remember that Foley's Kidney Cure will stop the irregularities and cure any case of kidney and bladder trouble that is not beyond the reach of medicine. T. F. Laurin Owl Drug Store.

## AN INSIDIOUS DANGER.

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. T. F. Laurin Owl Drug Store.

## CARDIFF COAL & COKE CO.

517 CHAMBER OF COMMERCE, PORTLAND OREGON.

THE COMPANY RESERVES THE RIGHT TO WITHDRAW THE STOCK FROM THE MARKET AT ANY TIME WITHOUT NOTICE.

## SINGLE BLESSEDNESS.

President Eliot Says Instructors Should not Marry too Early in Life.

CHICAGO, April 10.—Young college instructors should live in single blessedness, according to President Charles Eliot, of Harvard University, who lectured on "The Trustees" at Northwestern University last night. Only when the instructor had advanced to an assistant professorship should he contemplate matrimony, is the view of the educator.

"The trustees of a university should use careful judgment in regulating the scale of salaries for teachers and officers of the university," President Eliot said. "The salary for an instructor beginning to teach in a university should be the amount needed by a young unmarried man to live comfortably but not in luxury.

"The salary should be advanced as the instructor gains in usefulness and by the time he is ready for an assistant professorship his salary should be enough to enable him to support a wife and two or three children comfortably but not in luxury.

"Under all circumstances, the trustees should use good judgment in arranging the scale of salaries and take into consideration the circumstances and surroundings in each separate instance."

## SCHAEFER'S ILLNESS.

Billard Championship May go by Default to Sutton.

CHICAGO, April 10.—The billiard match for the 18.1 balkline championship of the world, billed for May 11, between Jacob Schaefer and Joe Sutton, will go by default to Sutton, the challenger, unless the present champion recovers from his serious illness in time to defend his title of which there is little hope.

Sutton left last night for Rochester to take the "Wizard's place" in the exhibition tour with Hoppe, as Schaefer became too ill in Albany to complete his engagement. Just before he left, Sutton said that according to the rules governing the championship trophy it will be impossible for him to agree to a postponement. He said, however, that he would not take a sick man's money and would return to Schaefer his forfeit of \$250 if the match was not played.

Schaefer has been sick for the last two weeks from an ulcerated stomach. A few day's rest at his home in Chicago has done much for the champion but it will be five or six weeks at least before he will be allowed to handle a cue.

## BOYS MISSING.

Boat They Went Hunting in Found One of the Boys Mother is Enroute for California.

SAGINAW, Mich., April 10.—While Mrs. T. Hart, of the suburb of Jamestown, is speeding westward on her way to California, groups of neighbors are working night and day with boats and grappling hooks trying to recover the bodies of Mrs. Hart's son, Thompson, 13 years old, and Tom Egerer, a playmate of the same age, who have been missing since Wednesday morning. The boat the two boys took to go hunting was found yesterday afternoon, half full of water, after friends had searched all Wednesday night for trace of the missing boys.

John Egerer, father of one of the

boys secured grappling-hooks here yesterday and the Tittahawasse river was being thoroughly dragged last night. The guns and paddles of the boys were not found in the boat. The search for Mrs. Hart's son has proved unavailing.

## CANNOT BE NATURALIZED.

CHICAGO, April 10.—A dispatch from Wabash, Ind., says:

Lum Hong, who had shed his queue and married a white woman, has applied for naturalization papers and the hearing was to have been held next Monday. Today the application was cancelled on order of the Department of Commerce and Labor, holding that Mongolians cannot be naturalized. Hong owns property and is very enterprising, having forsaken China permanently.

## What Stove for Summer?

Nothing adds to kitchen convenience in summer weather like a New Perfection Wick Blue Flame Oil Cook-Stove. Anything that any stove can do the "New Perfection" will do, and do it better. Bakes, roasts, boils, toasts; heats the wash water and the sad irons, and does it without dissipating its heat through the room to your discomfort. The

## NEW PERFECTION Wick Blue Flame Oil Cook-Stove

actually keeps the kitchen cool—actually makes it comfortable for you while doing the family cooking, because, unlike the coal range, its heat is directed to one point only—right under the kettle. Made in three sizes, fully warranted. If not with your dealer, write our nearest agency.

The **Rayo LAMP** affords a mellow light that is very grateful to tired eyes—a perfect student or family lamp. Brass, nickel plated, hence more durable than other lamps. If not with your dealer, write our nearest agency.
